Jun 2021 – Aug 2021

Remote

Projects

IVMS - ExpressJS , NodeJS , MongoDB , ReactJS , REST API , Postman | Repo

- Developed a web application with a team of 5 members to manage and streamline industrial visits. The system enables scheduling, record-keeping, and reporting, all within a user-friendly interface that ensures smooth operation and efficient management of industrial visits.

YSTREAM - REACT.JS , MATERIAL-UI, JavaScript, Figma , Netlify | Repo Demo

- Independently developed a video-sharing web application, simulating real-time video data retrieval through Rapid API. The platform features a modern, responsive UI, ensuring seamless user interaction and a high-quality video viewing experience.

PM TASKMANAGER - MySQL , PHP , XAMPP , HTML , CSS | Repo

- In a team of 2 members, developed a web application that helps users efficiently organize and prioritize tasks. The system uses a priority matrix to categorize tasks based on urgency and importance.

Achievements

COURSE CONTENT CREATOR @CDAC, BENGALURU

COLLABORATED WITHIN A TEAM TO CREATE CONTENT FOR A DSA USING JAVA MODULE , SERVING AS A REFERENCE FOR BATCH MATES.

AZURE FUNDAMENTALS: CLOUD SKILLS CHALLENGE

PARTICIPATED IN CLOUD SKILLS CHALLENGE ON MICROSOFT LEARN, GAINING PROFICIENCY IN CORE AZURE SERVICES, CLOUD CONCEPTS .

Certificates

- IEEE - Software Design
- IEEE - Software Construction
- IEEE - Software Testing
- SMART INTERNZ - Salesforce developer virtual internship
